

## Series 300 Adjustable Security Hanger Works With Any Wall Fastener

# Series 300 Hook-Ups!

**Hook-Ups!** Series 300 adjustable security picture hangers are a breakthrough in security hanging systems. Now there is a security hanger that will work with virtually any wall fastener! Use the fastener that works best for the installation - nails, screws, toggle bolts, expansion bolts, E-Z anchors, knotting anchors, butterfly anchors, drive anchors, etc. With Series 300 **Hook-Ups!**, no special tools are required to lock the hanger - just use a screwdriver.

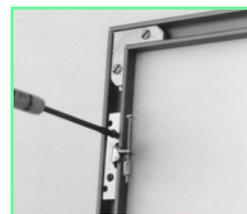

As with all **Hook-Ups!**, these security hangers are designed to work on wood or metal frames. They attach to each side of the frame to form a secure, wireless, two-point mounting system that will safely hold artwork weighing up to 100 pounds. The patented design allows artwork to be leveled easily without removing the item from the wall.

### Installing Hook-Ups! on Frames is Easy

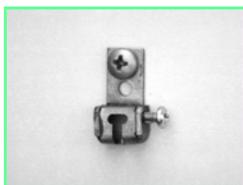

**On Wood Frames:**  
**Hook-Ups!** Install on each side of the frame, positioned about two inches from the top of the frame. Just use regular wood screws to secure each bracket to the frame.

**On Metal Frames:**  
Insert set screws into the threaded holes in the brackets. Slip each bracket into the frame channel about two inches below the top and tighten the set screws.

### Using Series 300 Hook-Ups!

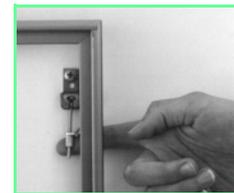

**Step 1:** Install two wall brackets using any type of wall fastener spaced the same distance as the hangers. Insert the self-tapping locking screws part way into the wall brackets.

**Step 2:**  
Slip the head of each hanger into the slot on the wall brackets. The artwork is now secure at two points.

Empty frame for illustration

**Step 3:** Lock the hanger by tightening the locking screws with a screwdriver. It's that easy!

**Step 4:**  
Level the frame by simply reaching behind and rotating the knurled adjusters. There is no need to remove the artwork from the wall to adjust it level.

### Ordering Information

- Series 300 Hook-Ups!** adjustable security hangers are available in two convenient forms:
- Order **Part #313 - Individually packaged pair** complete with mounting hardware for both wood and metal frames, wall brackets, locking screws, and wall fastening hardware.
  - Order **Part #300 - Bulk packaged pairs** of just the hangers, wall brackets, and locking screws. Screws to attach hangers to the frames, and wall fasteners must be purchased separately.
